

Office Memorandum · United States Government.

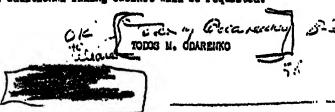

TO : Assistant Director, SI

DATE: 3 July 1953

PROM : Chief, Physics & Electronics Division, SI

suggest: Unidentified Flying Objects

- 1. Reference is made to your memorandum of 27 kmy 1953, subject as above, which assigned to this Division the responsibility "for maintaining current knowledge of reports of sightings of unidentified flying objects."
- 2. Since the referenced negorandva did not stipulate the priority of this project versus the normal responsibilities of this Division, nor indicated the depth or scope of required knowledge, the Division has reviewed the status of the project, its present nothed of handling and its possible timeliness or relationship to the current productive intelligence activities of the Division. The review involved informal discussions with ASD personnel, withline Heckert, CCI, with USAF personnel and with members of the Scientific Review Board called by CIA last year.
- J. The review indicated that a close follow-up of the project including a careful analysis of all incoming information and the corresponding limits with the sources would require continuous efforts of two analysts, a file clerk and a considerable typing lead.
- b. In view of the findings or the Board that a close inspection of the available material does not postulate a serious, direct threat to retional security, and that no information has been obtained since the Peard's conclusion to recessitate their modification, it was concluded that:
  - a. the project will be considered as inactive
  - b. the incoming raterial will be reviewed periodically to acgregate references to recognizable and explainable phenomena from those which come under the definition of "unidentified flying objects"
  - c. all material on unidentified objects will be deposited in the files for future reference unless it raises an immediately, recognizable problem of concern to national security.
- 5. With the above premise it is planned to handle the project with a part-time use of an analyst and a file clerk. To provide filing facilities, one additional filing cabinet will be requested.
